Subject: Dear Parents and other Endeavour supporters,

Dear Parents and other Endeavour supporters,

Last Tuesday, at our 09/09/03 meeting, we had our first meeting this year. Judging by the turnout (over 40 people) and the general level of interest & support, we are off to a super year.

***** Minutes, Meeting #1, 9/9/03*****

Steve Kliewer gave a quick rundown of last years accomplishments (thanks in large part to the Parent club) and then a preview of this year's planned events. (See Meeting #1 Agenda for list and dates)

A total of 7 parents will be joining us for the Oct 2 field trip to JPL.

Claire Silver suggested that we plan a repeat of the very successful tour of CalPoly's Engineering department.

Marty Conrad offered to check into a tour of Vandenberg to include the museum as well as a contractor site.

Marty also suggested an idea for our consideration: A student project developing autonomous, GPS-guided model aircraft.

Jim Hetherington suggested we contact the Central Coast Astronomical Society to set up a Mars Observation Night.

Many parents had a time conflict with Band meetings. We decided that future meetings would best be scheduled on the first Tuesday of each month and should start at 6 PM.

Jim Gustafson offered the likelihood that Arbiter would be willing to continue their very successful internships for students again this year.

Be sure and get an agenda for next meeting from our club webpage.

Melanie & Elaine Silver (Mechatronics Students) have offered to send an email reminder to all of us approximately two days prior to the next meeting (Oct 7).

***** Resources *****

Check out the Endeavour Website: Project pictures, descriptions, dates, grades
