

**ENDEAVOUR ACADEMY AT PASO ROBLES HIGH SCHOOL**

# Go High-Tech!

## Design and Build Exciting Projects

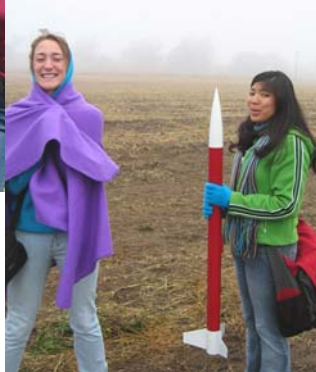

**Sign up now**

Ryan Allison—"I gained knowledge [as well as] skills such as grant writing, technical writing, and presentation giving that I will use later in life. I recommend this course to anyone"

Elaine Silver—"The Endeavour Academy was not only a fun class, but it also prepared me for my future college career."

Melanie Silver—"I have learned more in this class than in all my other classes combined"

Pedro Flores—"I have no doubt that my involvement in Endeavour impressed the admissions office and [smoothed] my way into CalPoly.

Matt Gustafson—"This class has been very beneficial to me. I have learned so many useful things that will help me excel in life.

James Harper—"This Endeavour experience made my year drastically better. Instead of just another generic book-work class, I could look forward to going to engineering.

C.J. McDougal—"This course has given me hope for the future. It has given me a reason to strive. I am going to college next year, and without this course, I would probably never have thought past high school."

Justin Koerber—"I expect this project to affect my future by opening up doors to other opportunities. Summer internships are now available to me that weren't before."

These exciting and challenging courses will boost you along the way to high school graduation, success in college, and on to top careers.

- Earn Physical & Earth Science Credit for HS graduation
- Accepted by UC for Lab Science Entrance Requirements
- Special Consideration by CalPoly admissions office
- Honors credit (approved by UC)
- Accepted by MIT as required science courses
